

The Comprehensive Solution for 24/7 Generator Monitoring

Your business can't afford to be out of power for a second. No matter how reliable today's standby power systems are, a failure can still occur.

OmniMetrix has been a leader in the generator monitoring industry for over 16 years, with systems that are the most comprehensive in the industry. All OmniMetrix monitoring and control systems connect you instantly from anywhere to real-time and historical information on any number of sites, from a single generator to an entire fleet.
