

## SIGNAL BOOSTING ANTENNA

### ***Magnet Mount Antenna 900/1800 MHZ Omni Directional w/ 12.5 ft. RG-17AA/U Cable & SMA Male Connector***

This 12.25 in. Mobile Cellular Outside Magnetic Mount Antenna is a versatile and powerful solution for enhancing cellular reception. Designed as a 50 Ohm Omni Directional Antenna, it features a robust magnetic mount for secure placement on vehicles or metal surfaces.

It comes equipped with 12.5 ft of RG174 cable and an SMA-Male connector, ensuring easy installation and compatibility with various signal boosting systems.

- **Magnetic Mount:** Offers a stable and secure attachment to any suitable metal surface, ideal for mobile applications.
- **Omni Directional:** Provides 360-degree coverage, enhancing signal reception from multiple directions without the need for repositioning.
- **Extended Cable:** Includes 12.5 ft of RG174 cable, allowing for flexible placement and optimal positioning to maximize signal strength.
- **International Frequency Support:** Supports the 900/1800 MHz frequency bands, making it suitable for use outside the United States. Please note, it does not support frequencies used in the United States.

This antenna is an excellent choice for those who require reliable cellular connectivity while traveling internationally, ensuring you stay connected wherever you go.
